PROFESSIONAL SUMMARY

VP, Sr. Design Manager with 13+ years of UX/UI design experience and 6+ years of design leadership. UX Certified by Nielsen Norman Group in Interaction Design & UX Management. Proven expertise in enterprise digital banking, design systems, AI-assisted user experiences, and data-driven design methodologies. Track record of building high-performing design teams, leading cross-functional initiatives, and translating complex business requirements into scalable, user-centered digital solutions. Passionate about human-centered AI design, emerging technologies, and mentoring design professionals.

CORE COMPETENCIES

Design & Strategy: UX Strategy • UI/UX Design • Design Systems • Interaction Design • User Research • Usability Testing • Information Architecture • Wireframing & Prototyping • Journey Mapping • Persona Development

AI & Technology: AI-Assisted UX Design • AI-Driven Product Design • Data-Driven Design • Design Thinking • Emerging Technology Integration • AI Tool Proficiency (ChatGPT, Claude, DALL-E, Midjourney, Figma with Claude)

Leadership & Process: Design Team Leadership • Mentoring & Training • Cross-Functional Collaboration • Agile Methodologies • Design Thinking Workshops • Stakeholder Management • Design Operations

Tools & Platforms: Figma • Adobe XD • Manus • Relume • Stitch • ServiceNow • Prototyping Tools • Analytics & Research Tools

PROFESSIONAL EXPERIENCE

Bank of Hope — VP, Sr. Design Manager

Mar 2023 – Present | Gardena, CA

- **Spearheaded enterprise digital transformation:** Led design and launch of Online Account Opening platform, reducing account opening time by 42% and increasing

conversion rates by 28% through data-driven UX optimization and intelligent workflow design.

- **Built scalable design infrastructure:** Established enterprise intranet portal with AI-assisted content structuring and automation workflows, improving employee productivity and information accessibility across 500+ users.
- **Led design team growth:** Recruited, mentored, and developed high-performing UX team of 8+ designers, establishing design excellence standards and fostering a culture of continuous innovation in AI-enabled product design.
- **Defined AI-ready design strategy:** Collaborated with C-level executives and engineering teams to architect next-generation digital banking experiences supporting automation, personalization, and intelligent decision flows.
- **Advanced design systems:** Evolved modular design system to support scalable, automation-friendly architectures enabling rapid product iteration across multiple digital channels.

Bank of Hope — AVP, UI/UX Design Lead

Mar 2019 – Mar 2023 | Los Angeles, CA

- **Designed omnichannel banking experiences:** Led end-to-end UX design for digital banking platform, incorporating behavioral data and personalization to optimize user journeys across web, mobile, and in-branch touchpoints.
- **Optimized user engagement:** Applied analytics and user research to identify friction points, resulting in 35% improvement in task completion rates and 25% increase in feature adoption.
- **Championed design systems:** Developed comprehensive design system supporting 50+ product features, enabling consistent UX across enterprise applications and reducing design-to-development time by 40%.
- **Established metrics-driven culture:** Defined and tracked UX metrics (task success, error rates, satisfaction scores), enabling data-informed design decisions and continuous product optimization.
- **Led cross-functional initiatives:** Collaborated with product, engineering, and business teams to align design strategy with business objectives and user needs.

Virtual Matrix Corporation — Lead UI/UX Designer

Jan 2018 – Mar 2019 | Minneapolis, MN

- **Defined UX strategy for enterprise applications:** Conducted user research and competitive analysis to establish design direction for healthcare and retail enterprise

solutions.

- **Led design workshops:** Facilitated stakeholder alignment sessions and design thinking workshops with cross-functional teams to translate business requirements into user-centered solutions.
- **Delivered design systems and prototypes:** Created comprehensive design documentation, wireframes, interactive prototypes, and design systems to guide product development and accelerate time-to-market.
- **Managed design team:** Supervised team of 3 designers, providing mentorship, design reviews, and quality assurance on all deliverables.

Infosys — Senior UI/UX Designer

Nov 2013 – Apr 2016 | Bangalore, India

- **Designed enterprise-scale digital products:** Led UX design for Infosys.com (global corporate website serving 1M+ monthly visitors) and Finacle banking suite (used by 500+ financial institutions globally).
- **Conducted user research:** Performed qualitative and quantitative research including user interviews, usability testing, and analytics analysis to inform design decisions.
- **Delivered scalable design solutions:** Created reusable UI components and design patterns adopted across multiple enterprise products and customer implementations.

Activesphere Technologies — UI/UX Designer

June 2012 – Nov 2013 | Bangalore, India

- **Designed mobile and web applications:** Created user interfaces and interaction design for SaaS products serving B2B and B2C markets.
- **Supported product launches:** Collaborated with product and engineering teams to deliver polished user experiences for product releases and feature updates.

AI & EMERGING TECHNOLOGY EXPERTISE

- **AI-Assisted UX Design:** Proficient in designing user experiences that integrate AI capabilities while maintaining transparency, trust, and usability. Experienced in designing for AI-powered automation, predictive workflows, and intelligent decision support systems.
- **AI Tool Mastery:** Advanced proficiency with ChatGPT, Claude, DALL-E, Midjourney, Gemini, Copilot, Firefly, Invideo, Perplexity, Lovable, Bolt, Manus, Stitch, and Relume for design ideation, asset creation, and workflow automation.

- **Data-Driven Design:** Skilled in applying behavioral analytics, user research, and quantitative metrics to optimize user experiences and drive business outcomes.
 - **Human-Centered AI:** Advocate for ethical AI design principles, ensuring user experiences remain intuitive, accessible, and aligned with user needs and expectations.
 - **Design System Innovation:** Experience evolving design systems to support AI-enabled features, automation workflows, and personalization at scale.
-

EDUCATION

Master of Technology (M.Tech) — Multimedia Technology

Karunya Institute of Technology and Sciences, Coimbatore, India

Bachelor of Engineering (B.E.) — Information Technology

Karunya Institute of Technology and Sciences, Coimbatore, India

CERTIFICATIONS & RECOGNITION

- **UX Certification in Interaction Design & UX Management** — Nielsen Norman Group
 - **Project Management for Designers** — Professional Certification
 - **Design Thinker** — Recognized practitioner in design thinking methodologies
 - **Behance Recognition:** 9.9K+ portfolio views, 300+ community appreciations, featured in design publications
-

LANGUAGES

- **English:** Professional Working Proficiency
 - **Tamil:** Native/Bilingual Proficiency
-

NOTABLE ACHIEVEMENTS

- **42% reduction in account opening time** through data-driven UX optimization at Bank of Hope
- **28% increase in conversion rates** for digital banking platform through personalized user journeys
- **500+ enterprise customers** using design systems and solutions created during tenure

at Infosys

- **8+ designers mentored and developed** into senior design roles, fostering design excellence culture
 - **Global recognition:** Behance portfolio viewed by 9.9K+ designers and industry professionals worldwide
-

ADDITIONAL INFORMATION

- **Open to:** Senior design leadership roles, UX consulting, design strategy engagements, and mentoring opportunities
- **Relocation:** Open to remote and on-site opportunities
- **Portfolio:** Comprehensive case studies and AI innovation projects available at <https://samselport-njshf200.manus.space>
